

Mochammad Lanang Afkaar Arrachmandhika

DKI Jakarta, Indonesia | P: +62 812-9054-8465 | afkaar2012@live.com | linkedin.com/in/lanangafkaar/

COMPETENCIES

Machine Learning || Deep Learning || Programming || Data Manipulation & Analysis || Data Cleaning & Preparation || Experimental Design and A/B Testing || Continuous Learning || Deployment & Orchestration || Infrastructure & Cloud || Software Engineering || DevOps Collaboration || Business Understanding

TECHNICAL SKILLS

Programming : Python, C++, SQL, Jupyter Notebook, OpenCV, Tensorflow/Torch

Applications : Word, Excel, PowerPoint.

Data Management : Tableau, Apache Superset, Apache Spark, Pandas, Numpy

Platforms : Windows and Linux.

EXPERIENCE

Artificial Intelligence Engineer

PT Wide Technologies Indonesia

IT Solutions and Banking

May 2022 – Until now

Jakarta, Indonesia

- Researched, developed, implemented, and deployed various RESTful API for using AI services.
- Research and developed MLOps in Wide AI server.
- Developed and Maintain AI-Backend servers.
- Collaborated with Wide Health:
 - Implemented and deployed a news recommendation system with achieved MAE/RMSE's error below 0,8.
 - Designed, developed, implemented, and deployed data extraction and cleaning from Google Fit to be used for user in health product.
 - Designed and Implementation solution in document information digitalization to be used in Administration Services Only by using Yolov7 achieving mAP above 90% and Google Vision AI for optical recognition characters.
 - Designed flow and deployment for Vital Analysis system using Webcam/Smartphones front camera in client browser.
- Collaborated with Wide KYC:
 - Implementation for ID document information extraction by using Yolov7 achieving mAP above 90% and Google Vision AI optical recognition characters.
- Collaborated with Wide VR:
 - Designed, developed, implemented and deployed Voice Chatbot that achieved accuracy above 95% for to be used in virtual reality chat developed by Wide VR.

Data Engineer Intern

Multimatics ID

Consultant and IT Training

October 2021 – April 2022

Jakarta, Indonesia

- Designing and create ETL (Extract, Transform, Loading) pipeline using Pentaho Ventara for Multimatics ID's internal project for Data Integration.
- Design data warehousing in company environment using CRISP-DM methodology and snowflake/star schema.
- Create data visualization using Apache Superset from integrated data. This data visualization used for monthly report.

Machine Learning Engineer
Bangkit 2021 Program

Ministry of Education and Culture's Program

February 2021 – July 2021
Remote Work, Indonesia

- Responsibilities as Machine Learning Engineer in “404 Not Found” team for Mobile SIBI Translator Development Team for Capstone Project.
- With members of “404 Not Found”, managed produce prototype of the application within one-month deadline in Kotlin Android and deploy the machine-learning model in Google Cloud Platform using Tensorflow, CNN where achieving validation accuracy above 95% and MediaPipe Feature Extraction.

Data Analyst Intern
Jakarta Smart City

Regional Public Service Agency under DISKOMINFO DKI Jakarta

June 2020 – July 2020
Remote Work, Indonesia

- Responsibilities as Data Analyst Intern of Data & Analytics of JSC in video analytics team. Responsible of finding insight and extracting data from video for then used as an analysis regarding the situation of Jakarta city during COVID-19 pandemic.
- Managed to produce a scientific paper with the title as follows: A computer vision-based object detection and counting for COVID-19 protocol compliance: a case study of Jakarta and presented at ICISS 2020 on ITB.

EDUCATION

Telkom University

Bachelors of Computer Engineering; Major in Electrical Engineering

Bandung, West Java
November 2021

- Thesis: “Sistem Isyarat Bahasa Indonesia Sign Language Classification Using Faster Region Convolutional Neural Network Method”

Bangkit Academy 2021

Machine Learning Path

Remote Study, Indonesia
July 2021

- Capstone Project: “Mobile SIBI Translator”
- Bangkit Academy led by Google, Tokopedia, Gojek & Traveloka.

ADDITIONAL

Languages

: Fluent **Bahasa Indonesia**; Conversational Advanced in **English** with TOEFL score 540.

Certifications & Training

: Bangkit 2021 Program specializing in **Machine Learning**, DeepLearning.AI TensorFlow Developer Specialization, Google IT Automation with Python Professional Certificate.
