Mailing Address

East Jakarta, Bantar Jati Street No. 24

PO BOX 13880

An enthusiastic person, self-motivated, reliable, responsible, and adaptable to all challenging situations. Able to work well both in a team environment as well as using my own initiative. Eager to learn new things to improve, experience, and deepen my knowledge. Deeply interested in developing skills in machine learning, DevOps, IT management and Project Management. Experience with building recommendation systems, computer vision, MLOps, and analytics in previous projects. With built-up experience, skills, and team collaboration in Data Science, ready for creating an impact on any development for data modeling.

EXPERIENCE

Artificial Intelligence Engineer

PT Wide Technologies Indonesia

IT Solutions and Banking

May 2022 – Until now

Jakarta, Indonesia

- As part of the AI Team, has researched, developed, implemented, and deployed various RESTful API for using AI services.
- Research and developed various deployment options for MLOps in Wide AI server environment e.g., Google cloud platform, docker. microservices.
- Developed and Maintain AI-Backend servers to be use in development environment and production for the needs of the services that have been made.
- Collaborated with Wide Health:
 - Developed, implement, and deploy a news recommendation system for in Wide Health website and mobile apps with achieved MAE/RMSE's error below 0,8.
 - Designed, developed, implemented, and deployed data extraction and cleaning from Google Fit to be used for Health product.
 - Help the development, implementation, and deployment for document information digitalization to be used in Administration Services Only by using Yolov7 achieving mAP above 90% and Google Vision AI for optical recognition characters.
 - Designed flow and deployment for Vital Analysis system using Webcam/Smartphones front camera in client browser.
- Collaborated with Wide KYC:
 - Help the development, implementation, and deployment for ID document information extraction by using Yolov7 achieving mAP above 90% and Google Vision AI optical recognition characters.
- Collaborated with Wide VR:
 - Designed, developed, implemented and deployed Voice Chatbot that achieved accuracy above 95% for to be used in virtual reality chat developed by Wide VR.

Data Engineer Intern
Multimatics ID

October 2021 – April 2022
Jakarta, Indonesia

Consultant and IT Training

- Part of data science division of Multimatics ID consultant department.
- Designing and create ETL (Extract, Transform, Loading) pipeline using Pentaho Ventara for Multimatics ID's internal project for Data Integration.
- Design data warehousing in company environment using CRISP-DM methodology and snowflake/star schema.
- Create data visualization using Apache Superset from integrated data. This data visualization used for monthly report.

Machine Learning Engineer
Bangkit 2021 Program

February 2021 – July 2021
Remote Work, Indonesia

Ministry of Education and Culture's Program

- Member of Machine Learning Path Program.
- Responsibilities as Machine Learning Engineer in "404 Not Found" team for Mobile SIBI Translator Development Team for Capstone Project.
- With members of "404 Not Found", managed produce prototype of the application within one-month deadline in Kotlin Android and deploy the machine-learning model in Google Cloud Platform using Tensorflow, CNN where achieving validation accuracy above 95% and MediaPipe Feature Extraction.

Data Analyst Intern
Jakarta Smart City

June 2020 – July 2020
Remote Work, Indonesia

Regional Public Service Agency under DISKOMINFO DKI Jakarta

- Responsibilities as Data Analyst Intern of Data & Analytics of JSC in video analytics team. Responsible of finding insight and extracting data from video for then used as an analysis regarding the situation of Jakarta city during COVID-19 pandemic.
- Managed to produce a scientific paper with the title as follows: A computer vision-based object detection and counting for COVID-19 protocol compliance: a case study of Jakarta and presented at ICISS 2020 on ITB.

Undergraduate Research and Practicum Assistant
Telkom University, RAID I-SMILE Laboratory

August 2019 – August 2020
Bandung, Indonesia

Artificial Intelligence Laboratory

- Overhauled obsolete legacy source code of two production applications for practicum teaching material by finding and fixing known bug in the source code.
- Responsibilities as a member of Research and Development Division, where also were doing research machine learning project. Known project: Development Coffe Cherry Classification using Random Forest.

Human Resource Division Intern
PT. Saptaindra Sejati
Mining Contractor

June 2019 – August 2019
South Jakarta, Indonesia

- Responsibilities as an Intern in the Human Resource Division at Jakarta Head Office.
- Tasked to find, clean, reorganize, filing and folder the data of employees of PT. Saptaindra Sejati into a new form of physical database rack.

EDUCATION

BS **Telkom University**, Computer Engineering November 2021
Thesis: “Sistem Isyarat Bahasa Indonesia Sign Language Classification Using Faster Region Convolutional Neural Network Method”

VC **Bangkit Academy**, Machine Learning Student July 2021
Capstone Project: “Mobile SIBI Translator”
Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka.

TECHNICAL SKILLS

Programming : Python, C++, SQL, Jupyter Notebook, OpenCV, Tensorflow/Torch,
Applications : Word, Excel, PowerPoint.
Data Manipulation : Numpy, Pandas.
Data Management : Tableau, Apache Superset, Apache Spark.
Platforms : Windows and Linux.

PROFESSIONAL TRAINING

Bangkit 2021 Program: specializing in Machine Learning.
Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka, July 2021
Credential Link: bit.ly/bangkit_lanang

DeepLearning.AI TensorFlow: Data and Deployment Specialization
DeepLearning.AI, May 2021
Credential ID: D2L4DJSDQX4

DeepLearning.AI Structuring Machine Learning Projects
DeepLearning.AI, May 2021
Credential ID: QG57KVV2BBZ7

DeepLearning.AI TensorFlow Developer Specialization
DeepLearning.AI, April 2021
Credential ID: F6D8RNMLVQV3

Mathematics for Machine Learning Specialization
Imperial College London, Maret 2021
Credential ID: S5DJP9SCSNSY

Google IT Automation with Python Professional Certificate
Google, Maret 2021
Credential ID: 95NGQ5RC626F

Google IT Support Professional Certificate

Google, Maret 2021

Credential ID: 4775PV9X38NJ

LANGUAGES

Bahasa Indonesia: Native Language.

English: Intermediate Listener, Novice Speaker, Advanced Reading and Writing, TOEFL-ITP Score = 540 on December 2020.
